

**Change Creators works with business leaders and their people  
to create better business outcomes by focusing on the things that matter.**

The world of work and business is rapidly changing. It is people performing in meaningful ways that creates the spark of difference needed to build sustainable business advantage.

Companies with *profits married to purpose and ethics* and who *champion human factors* are the employers workers want to work for, and the businesses customers want to buy from.

[Susie Vergers](#), Change Creators' Principal Consultant, works with businesses that wish to flourish in this new reality through:

- [Workplace Training](#) *for small & medium enterprises and training organisations.*

Areas of expertise include leadership and management, strategy, marketing, customer service, staff engagement, team development and improving communication and conflict resolution skills.

- Business Coaching for small business owners and managers of private and community enterprises

- [DiSC Behaviourial Profiling](#) as part of a customised leadership, team or workplace transformation project.

**From 1 June Change Creators will be operating from the Sunshine Coast.**

Start with a meeting or phone conversation and explore how Change Creators can assist you and your business' needs.
